McKesson Performance Analytics Explorer release information

The document provides you with information about McKesson Performance Analytics Explorer™ release 5.0.1 for use with McKesson Business Insight 16.0 SP3 and 16.0 SP4.

McKesson Performance Analytics Explorer release 5.0.1 includes TIBCO Spotfire® hot fix TS_5.0.1.23_HF007 (*available May 24, 2013*).

Download Explorer 5.0.1 software components and instructions

Before you can begin the installation or upgrade to McKesson Performance Analytics Explorer 5.0.1, you must download the following executable files from McKesson's Download Central web site.

- *Explorer_5.0.1_software*

  Includes the Explorer software components provided by TIBCO Software, Inc.

- *Explorer_5.0.1_BI16_sp3_4_integration*

  Includes the integration components necessary to allow communication between the McKesson Business Insight 16.0 SP3 or SP4 application server and the Explorer 5.0.1 web player server.

- *Explorer_5.0.1_BI16_sp3_4_doc*

  Includes the *McKesson Performance Analytics Explorer 5.0.1 Installation and Upgrade Guide* and a copy of these release notes.

  The install and upgrade guide describes the procedures necessary to properly install McKesson Performance Analytics Explorer 5.0.1 or upgrade from an earlier Explorer release for use with McKesson Business Insight™ 16.0 SP3 and 16.0 SP4. These release notes are also included in this executable.

Explorer hot fixes and patches

The McKesson Performance Analytics Explorer 5.0.1 software has been validated against TIBCO Spotfire® hot fixes and patches received from TIBCO Software, Inc. through the release date of May 24, 2013. Explorer hot fixes patches are available from McKesson's Download Central web site.

If you choose to apply unsupported TIBCO patches or hot fixes, and do not download the patches or hot fixes from Download Central, you do so with the understanding that Performance Analytics Customer Support will attempt to resolve issues, however, additional time may be required to identify a satisfactory solution. The removal of patches or hot fixes that are causing the issue may also be required.

Reference Information for Explorer users

This section describes where you can go to access information and training about using your Explorer components.

Access to Explorer training

The *Spotfire Learning Network* provides you with easy access to courses and training information. You can access the site at the URL shown below.

http://spottrain.tibco.com/sln/

Access to PDF manuals

Instructions for deploying the current version of the TIBCO Spotfire® Documentation manuals are available in the *McKesson Performance Analytics Explorer 5.01 Installation and Upgrade Guide*.

- TIBCO Spotfire® 5.0.1 User's Manual
- TIBCO Spotfire® 5.0.1 Deployment and Administration Manual

After the manuals have been placed on your McKesson Business Insight application server, open the Explorer Professional Client software and click **Help > PDF Manuals** to access the desired manual noted above.
